

Search function

The screenshot shows the TCTR search interface. At the top, there is a navigation menu with links: Home, Search, FAQs, About Us, Contact Us, and Download. Below the menu, there are two tabs: 'Basic Search' and 'WHO ICTRP Search portal'. An example search query 'asthma AND corticosteroid' is shown above a search input field labeled 'Keyword Search' with a 'Search' button. Below the search bar is a table with columns for 'TCTR ID', 'Recruitment Status', 'Public Title', 'Preview', and 'Download'. The table currently displays 'No data available in table' and 'Showing 0 to 0 of 0 entries'.

The user can search for registered records. The search engine is sectioned into the following functions.

- Search bar.

This is a close-up view of the search bar area. It shows the 'Basic Search' and 'WHO ICTRP Search portal' tabs, the example search query 'asthma AND corticosteroid', and the 'Keyword Search' input field with a 'Search' button.

- Boolean operators are applicable.

- If the user clicks “Search” while the search bar is left blank, or contains only spaces, the system will display “Empty Input”.

- When the user enters keywords and clicks “Search”, the table will display a list of research that contains such keywords in either Public Title, Scientific Title, Health Condition, or Keyword.

- Result filters

- Once entering keywords in the search bar, the user will notice the “Advanced Search” button next to the “Search” button.

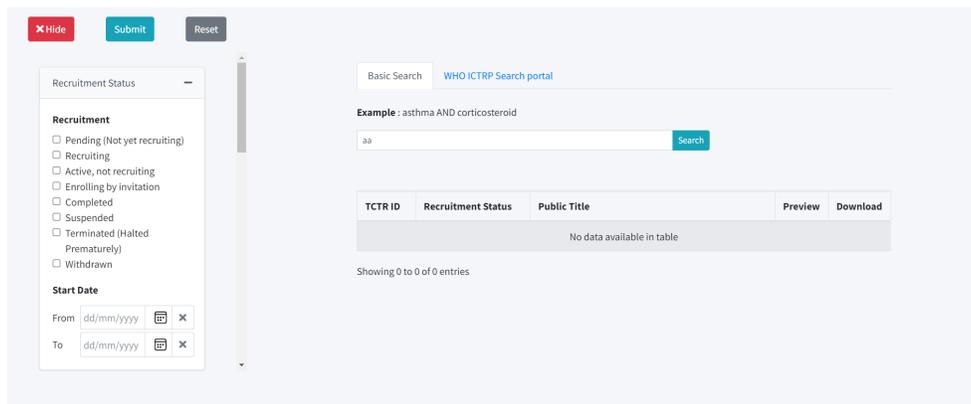

The screenshot shows the top part of the search interface. It includes a header with "Basic Search" and a link to "WHO ICTRP Search portal". Below this is an example search term "asthma AND corticosteroid". A search bar contains the letter "a". To the right of the search bar are two buttons: a green "Search" button and a blue "Advanced Search" button with a downward arrow icon.

- Click “Advanced Search” to open the result filter tool bar.

- Click "Hide" to hide the result filter tool bar.

- Click “Reset” to reset the result filter tool bar.

The screenshot shows the search interface with the result filter tool bar open on the left. The tool bar has a red "Hide" button, a green "Submit" button, and a grey "Reset" button. It is titled "Recruitment Status" and contains a list of checkboxes under "Recruitment": Pending (Not yet recruiting), Recruiting, Active, not recruiting, Enrolling by invitation, Completed, Suspended, Terminated (Halted Prematurely), and Withdrawn. Below this is a "Start Date" section with "From" and "To" date pickers. The main search area on the right shows the search bar with "aa" and a green "Search" button. Below the search bar is a table with columns: TCTR ID, Recruitment Status, Public Title, Preview, and Download. The table is currently empty, displaying "No data available in table" and "Showing 0 to 0 of 0 entries".

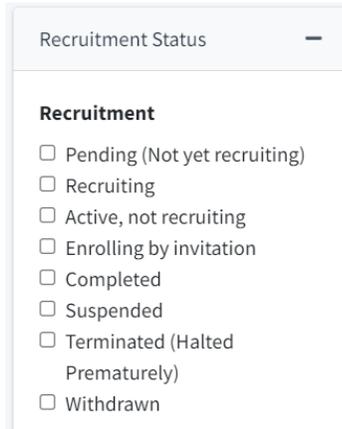

- If the result filter tool bar is open while the search bar is left blank, the tool bar will be automatically reset and closed.

The user can filter the records based on the following categories.

- Recruitment Status

- More than one Recruitment Status can be selected.

- If the user selects at least one Recruitment Status and clicks “Submit” or “Search”, the table will display research results that contain keyword(s) provided in the search bar and the selected Recruitment Status.

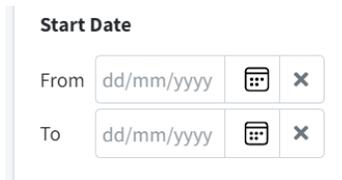

The screenshot shows a dropdown menu titled "Recruitment Status" with a minus sign on the right. Below the title, the word "Recruitment" is bolded. There are ten checkboxes, each followed by a status name: Pending (Not yet recruiting), Recruiting, Active, not recruiting, Enrolling by invitation, Completed, Suspended, Terminated (Halted Prematurely), and Withdrawn.

- Start Date

- The user can enter date in either field provided.

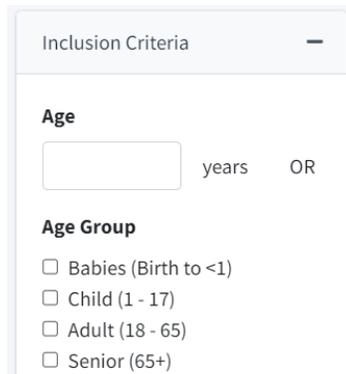

- The user can click the “x” button on the right of the date input field to clear the value.

- If the user enters start date in at least 1 field and clicks “Submit” or “Search,” the table will display the records that contain keyword(s) provided in the search bar, of which the study start date is between the range (if entering a date in both fields), or from a specific date if the date is only provided in the ‘From’ field, or before a specific date if the date is only provided in the ‘To’ field.

The screenshot shows a section titled "Start Date" with two rows of input fields. The first row is labeled "From" and the second row is labeled "To". Each row contains a text input field with the placeholder "dd/mm/yyyy", a calendar icon, and a clear button (an 'x' in a square).

- Age and Age Group
 - The user can enter an age value with up to two decimals. If it contains more than two decimals, the value will be adjusted to two decimals automatically.
 - More than one age range can be selected.
 - If the user enters an age value, or selects at least one age range, and clicks “Submit” or “Search,” the table will display the records that contain keyword(s) provided in the search bar and the selected age range(s).

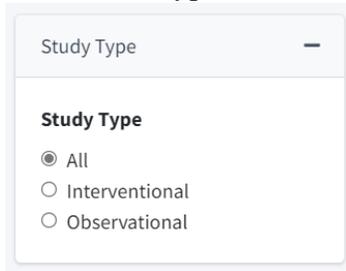

The screenshot shows a form titled "Inclusion Criteria" with a minus sign in the top right corner. Under the "Age" section, there is a text input field followed by the text "years" and "OR". Below this, the "Age Group" section contains four radio button options: "Babies (Birth to <1)", "Child (1 - 17)", "Adult (18 - 65)", and "Senior (65+)".

- Gender
 - Only one gender can be selected.
 - If the user selects “Female” or “Male” and clicks “Submit” or “Search,” the table will display the records that contain keyword(s) provided in the search bar and the selected gender.

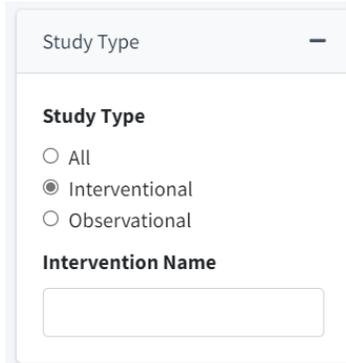

The screenshot shows a form titled "Gender" with three radio button options: "All", "Female", and "Male". The "All" option is selected.

- Study Type
 - Only one research type can be selected.
 - If the user selects “Interventional” or “Observational” and clicks “Submit” or “Search,” the table will display the records that contain keyword(s) provided in the search bar which match the selected type.

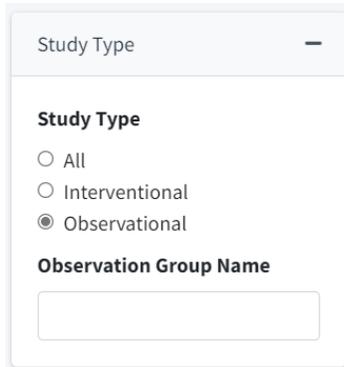

The screenshot shows a dropdown menu titled "Study Type" with a minus sign on the right. The menu is open, displaying three radio button options: "All" (which is selected), "Interventional", and "Observational".

- Intervention Name
 - If the user selects “Interventional,” there will be an Invention Name input field displayed below.
 - Boolean operators are applicable.
 - If the user enters specific keywords and clicks “Submit” or “Search,” the table will display interventional study records that contain keyword(s) provided in the search bar and those in the Intervention Name or the Intervention Description input field.

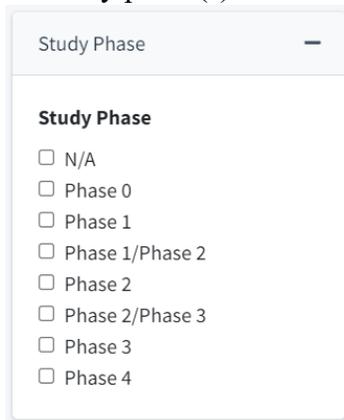

The screenshot shows the same "Study Type" dropdown menu, but now "Interventional" is selected. Below the radio button options, there is a section titled "Intervention Name" with an empty text input field.

- Observation Group Name
 - If the user selects “Observational,” there will be an Observation Group Names input field displayed below.
 - Boolean operators are applicable.
 - If the user enters specific keywords and clicks “Submit” or “Search”, the table will display observational study records that contain keyword(s) provided in the search bar and those in the Group Name or the Group Description input field.

The screenshot shows a filter panel titled "Study Type" with a collapse icon. It contains three radio button options: "All", "Interventional", and "Observational". The "Observational" option is selected. Below the radio buttons is a text input field labeled "Observation Group Name".

- Study Phase
 - More than one study phase can be selected.
 - If the user selects at least one study phase and clicks “Submit” or “Search,” the table will display interventional study records that contain keyword(s) provided in the search bar and the selected study phase(s).

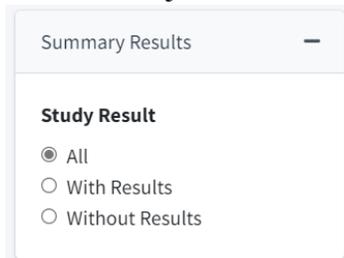

The screenshot shows a filter panel titled "Study Phase" with a collapse icon. It contains a list of checkboxes for different study phases: "N/A", "Phase 0", "Phase 1", "Phase 1/Phase 2", "Phase 2", "Phase 2/Phase 3", "Phase 3", and "Phase 4".

- Study Result

- Only one study result can be selected.

- If the user selects “With Results” and clicks “Submit” or “Search,” the table will display the records that contain keyword(s) provided in the search bar and a “Completed” or “Terminated” recruitment status, which have already posted or published research outcomes in a journal.

- If the user selects “Without Results” and clicks “Submit” or “Search,” the table will display the records that contain keyword(s) provided in the search bar, of which the recruitment status is neither “Completed” nor “Terminated,” or the outcomes have not yet been posted and published in a journal.

Summary Results —

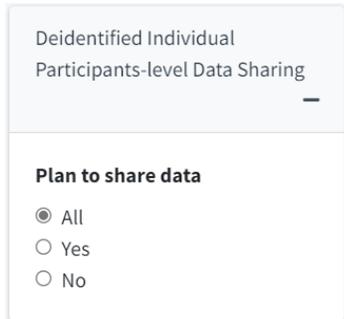

Study Result

- All
- With Results
- Without Results

- Plan to share data

- Only one option can be selected.

- If the user selects “Yes” or “No” and clicks “Submit” or “Search,” the table will display the records that contain keyword(s) provided in the search bar and the selected plan to share data.

- Sponsor
 - Boolean operators are applicable.
 - If the user enters specific keywords and clicks “Submit” or “Search,” the table will display the records that contain keyword(s), as provided in the search bar, in Source(s) of Monetary, or Material Supports, Study Primary Sponsor, or Study Secondary Sponsor.

A screenshot of a search interface for the 'Sponsor' field. It shows a header 'Sponsor' with a minus sign, followed by a sub-header 'Sponsor' and a text input field.

- First Posted Date
 - The user can enter date in either field provided.
 - The user can click the “x” button on the right of the date input field to clear the value.
 - If the user enters first posted date in at least 1 field and clicks “Submit” or “Search,” the table will display the records that contain keyword(s) provided in the search bar, of which the first posted date is between the range (if entering a date in both fields), or from a specific date if the date is only provided in the ‘From’ field, or before a specific date if the date is only provided in the ‘To’ field.

A screenshot of a search interface for the 'First Posted Date' field. It shows a header 'First Posted Date' with a minus sign, followed by a sub-header 'First Posted Date'. Below this are two rows: 'From' and 'To'. Each row contains a text input field with the placeholder 'dd/mm/yyyy', a calendar icon, and a clear 'x' button.
